

CYBERSECURITY DIAGNOSTIC CERTIFICATE

ATN GROUPE

2 ALLEE MITAILLERES,
38240 MEYLAN

CEDRAT TECHNOLOGIES

59 CHEMIN DU VIEUX CHENE
38240 MEYLAN

Period of assessment :

- June 2025

The company CEDRAT TECHNOLOGIES underwent a diagnostic of its processes, an internal penetration test, an external surface analysis, and an assessment of the security configurations of its Microsoft 365 cloud environment, based on all or part of the following methodologies or frameworks:

- ISO 27001:2022 standard;
- ANSSI's IT hygiene guide ;
- DGA's fundamental level cyber maturity framework ;
- Attack surface analysis performed by Visiativ using SecurityScoreCard™ ;
- Cyber Security Vulnerability Assessment Methods (Cyber Security VAM) ;
- Internal penetration test (Pentest) conducted by Visiativ using Pentera™ (based on the MITRE ATT&CK® framework) ;
- Security configuration analysis of the Microsoft 365 cloud environment using ScubaGear.

Mr. Aymeric BUTTOUDIN, Technical Manager of ATN GROUPE, certifies that a cybersecurity assessment has been conducted, targeting the company's cybersecurity processes, the external perimeter of CEDRAT TECHNOLOGIES exposed to the internet, the designated internal network, and the Microsoft 365 cloud domain of CEDRAT TECHNOLOGIES.

Done at Meylan, on 07/09/2025.
